

INDEX

Note: This is not an exhaustive list or all-encompassing work. It is a small collection of the work I have done in the areas below to date (well, those that have been committed to writing). It is intended to be a “first reference” of many and to help answer the question I continually receive, “where can I read about that?”

Peace – Dr. Paul Anderson

| SECTION | TOPIC | PAGES |
|------------|--|---------|
| Section 1: | Integration | |
| | Integration of medical care in chronic illness and cancer: Holism | 1 - 6 |
| Section 2: | General Topics | |
| | Naturopathic Medicine and Chronic Illness | 7 – 10 |
| | Emergency Room Visits and Nutritional Supplements? | 10 – 12 |
| | Toxicity: Endocrine Disrupting Chemicals | 13 – 15 |
| | Insomnia and Chronic Illness – Infection | 15 |
| | Select Lab Notes | |
| | Neutrophil to Lymphocyte Ratio | 15 |
| | Vitamin D: 1,25 versus 25 OH D3 | 16 |
| | G6PD | 16 – 17 |
| | Other Hemoglobinopathies | 18 |
| | IV THERAPY GENERAL INFORMATION | |
| | Post IV Fatigue and Other Reactions | 18 - 20 |
| | Post IVC Headache | 20 |
| | IV Line Flush | 20 |
| | Can IV osmolarity be below 300? | 21 |
| | Parenteral Drug or Substance Allergy Detection | 21 – 24 |
| | IV Hydrogen Peroxide Cytokine Triggering and Gastrointestinal Repair | 24 – 25 |
| | Pediatric IV Dose and Volume Calculations and Considerations | 26 - 27 |
| | IV Compatibility Chart | 28 – 29 |

| | | |
|------------|--|-----------|
| Section 3: | Quality of Life | 30 |
| | “ReDox” Support and Balance | 30 – 33 |
| | Hydration (Including Low Dose IVC and Glutathione Support) | 34 - 35 |
| Section 4: | Ascorbate in Medicine | |
| | Intravenous Vitamin C (Ascorbic Acid): Information for Physicians and Patients | 35 - 38 |
| | Ascorbate Pharmacology, Stability, Dosing and Chemistry | 39 – 48 |
| | Ascorbate, Comorbidity and Safety (Pregnancy, Renal, Diabetic and Cardiac) | 49 – 55 |
| | Ascorbate and Vitamin K3 | 56 |
| | Ascorbate Cancer and Chronic Infections, Protocols and Plasma Levels | 57 – 62 |
| | Ascorbate, High Dose Formulas and Electrolyte Data | 63 – 64 |
| | Ascorbate, Chemotherapy and Radiation Data | 65 - 99 |
| Section 5: | Neurological Topics | |
| | Glutathione (Support, Reactions, Versus NAC | 100 - 105 |
| | Nrf-2 | 105 – 108 |
| | Traumatic Brain Injury | 108 - 111 |
| | Leaky Blood-Brain Barrier / Neurological Inflammation | 112 - 116 |
| Section 6: | Oncology Topics | |
| | Nausea in the cancer patient | 117 – 118 |
| | Diet and Supplements after a Cancer Diagnosis | 118 – 121 |
| | Vitamin A Retinoids and Cancer | 121 – 122 |
| | Probiotic Safety and use in Oncology | 122 – 124 |
| | Glutamine in Oncology – Friend or Foe | 124 – 126 |
| | Glutathione in Oncology | 127 – 128 |
| | Antioxidants in Oncology | 129 – 130 |
| | Cancer Stem Cells | 131 – 132 |
| | Combined Metabolic Therapies in Oncology | 133 – 136 |
| | Handout for: Combined Metabolic Therapies in Oncology | 137 – 139 |
| | Glioblastoma and Metabolic Therapy – A Patient Handout | 139 – 140 |
| | Glioblastoma and Antiviral Therapies | 140 |

| | |
|---|-----------|
| Tetrathiomolybdate Copper Reduction and Cancer (Protocol and Handout) | 141 – 146 |
| Myelodysplasia: Potential Therapies | 147 – 148 |
| Polycythemia Vera and Nutrients | 149 |
| Section 7: Monographs (and related data) | |
| Artesunate | 150 – 157 |
| Curcumin | 158 – 170 |
| Germanium Sesquioxide | 171 – 172 |
| Glycyrrhizin (or glycyrrhizic acid or glycyrrhizinic acid) | 172 – 173 |
| Low Dose Naltrexone | 174 – 175 |
| Oxaloacetate | 176 – 177 |
| Poly-MVA (Lipoic Acid Mineral Complex) | 178 – 186 |
| Poly-MVA – DCA Oral Dose Guidelines | 187 |
| Quercetin | 188 – 189 |
| Resveratrol | 189 – 191 |
| Silibinin | 191 - 194 |
